Together, let's promote our handmade products !

Zero registration fee!

Everyone can participate!

WHAT IS THE PROMOSS PROJECT ?

The PROMOSS Project is an initiative that enables members and supporters to develop their sales skills by confidently approaching potential customers to offer our products and services.
The direct benefits of this project are simple : anyone can start earning commissions from zero francs, without paying a registration fee. All they need to do is promote the Association's services and handmade products to the public, just like a sales representative or courier.

1 A PROJECT OPEN TO EVERYONE

This project is open to anyone who wishes to promote or recommend our products to potential customers, helping us sell handmade products made by young people in our centers during their vocational training.

MEMBERS, SUPPORTERS, CUSTOMERS, COURIERS — EVERYONE CAN PARTICIPATE !

2 REGISTRATION AND OBTAINING YOUR CODE

Even if you do not have any money to start with, you can register for free at one of our centers or on our website to obtain a customer code.

Alternatively, when you make a purchase at one of our craft centers, you can receive your **merchant** or PROMOSS code.

7 FREE CODE ALLOCATION IN CERTAIN CASES

In this project, we may decide to give a PROMOSS code to certain people so they can benefit from the project's advantages if their financial situation does not allow them to make their first purchase.

This means that people can start earning money in our Association from zero francs, without being required to pay anything to get started ; what matters is their willingness to support our Association.
